

CSS STEEL FABRICATION DATABASE

The Construction Support Services Steel Fabrication database has over 3400 items of work covering all forms of metal fabrication including Steel, Stainless Steel, Aluminum, Brass, Bronze, and Copper.

This database is complete with labor, material and sub contract unit pricing which can be modified by the end user with their specific historical data.

Database Specifications:

- Over 3400 Items
- Over 85 Phases
- Over 600 Formulas
- Over 40 Material classes
- Over 60 Assemblies

Database Group Phases:

Steel	10.00
Aluminum	20.00
Stainless Steel	30.00
Brass-Bronze-Copper	40.00
Hardware	50.00
Painting & finishing	60.00
Misc. Materials	70.00
Buy-Out Items	80.00
Handrails-Guardrails	
Stair Components	
Joists & Deck	
Labor	90.00
Shop Labor	
Field Labor	
Sub Contracts	100.00
Galvanizing	
Bending & Rolling	
Field Installation	

Database Assemblies:

Common Assemblies	2 Assemblies
Pipe Fabrication	3 Assemblies
TS Beam Fabrication	11 Assemblies
TS Column Fabrication	11 Assemblies
WF Beam Fabrication	14 Assemblies
WF Column Fabrication	14 Assemblies
