

SAGE CONSTRUCTION AND REAL ESTATE SOLUTIONS

ePlan Takeoff

By connecting Estimating, a Sage Construction and Real Estate application, with On Center's On-Screen Takeoff product, ePlan Takeoff lets you generate counts and quantity takeoffs directly from electronic drawings for instant use in your estimates.

ePlan Takeoff gives you the ability to quickly calculate and transfer project dimensions including lengths, areas, and volumes directly to Estimating. It streamlines takeoff, provides a takeoff audit trail, and lets you create accurate estimates without ever needing to pore over bulky blueprints.

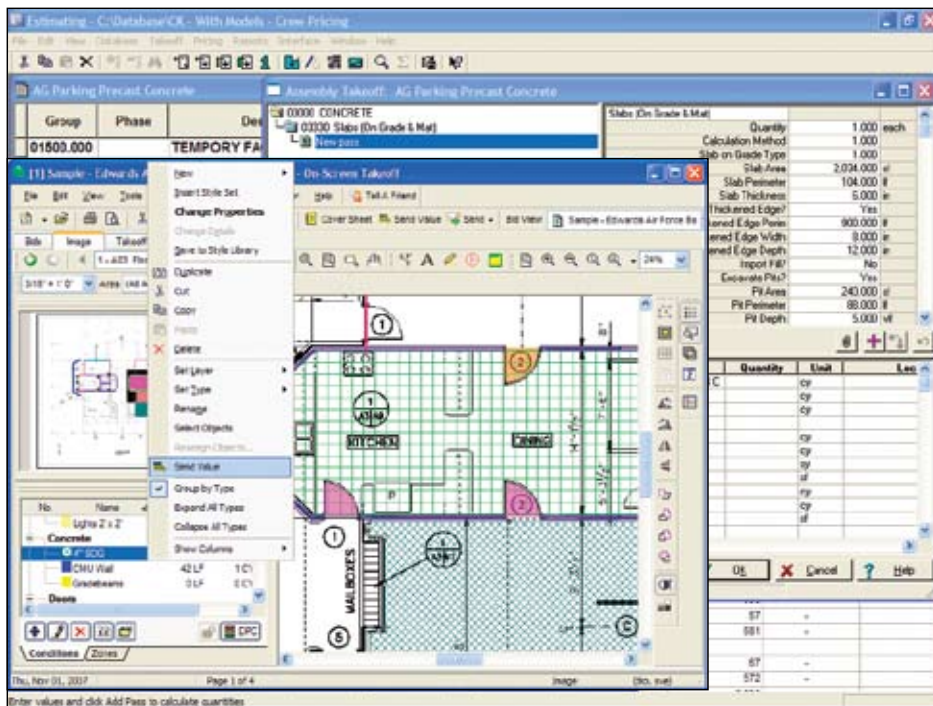

BENEFITS

Utilize the option to digitize counts and quantity takeoffs using paper or electronic plans.

Streamline processes and save time by sharing data between digitizing and estimating software.

Access digitized images and supporting values for improved estimate analysis capabilities.

Enjoy the flexibility to work with a variety of digital plans including DWG, JPEG, BMP, Dodge, ACOE, and more.

◀ Send values from On-Screen Takeoff electronic plans directly to an Estimating spreadsheet.
