

## Win more jobs with easy accurate Material takeoffs!

Join the thousands of builders, estimators, and contractors who are already using PlanSwift to perform their material takeoffs digitally, on their computer screen, in 1/10<sup>th</sup> the time it took them to complete on paper.

With PlanSwift's visual point-and-click interface, you can drag and drop individual products or assembled product groups directly onto a digitized blueprint. PlanSwift calculates the takeoffs automatically – saving you valuable time and effort.

### KEY BENEFITS:

- ◆ Win more bids!
- ◆ Dramatically reduce job costs and risks.
- ◆ Minimize material waste and short orders.
- ◆ Eliminate printed plans.
- ◆ Calculate takeoffs with unparalleled speed and accuracy

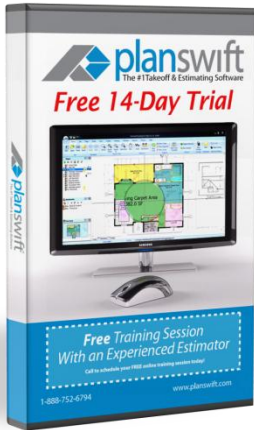

*"We have been using PlanSwift now for the past 6 months, and the amount of time it has saved is staggering. The program is very intuitive, simple to use, powerful, and has dead on accuracy. PlanSwift has been a great asset to our company."*

-Bob C., Universal Forest Products

**Easy, Accurate, Efficient**

**The fastest, easiest software for completing construction takeoffs.**

**planswift** is the ultimate software platform for streamlining the construction material takeoff process.

**PlanSwift's feature rich environment includes the ability to:**

- Integrate with external applications, files and data so you don't spend time retyping quantities
- See-through and comparative plan overlays.
- Measure lineal footage and square footage, pitches and angles
- Email, update, and store plans using industry standard CAD and image files.

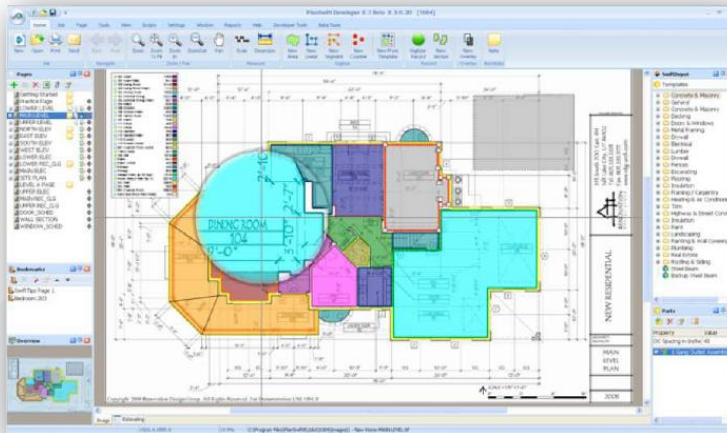

**Don't waste time doing takeoffs by hand. Visit [www.planswift.com](http://www.planswift.com) for a free 14 day trial!**

- Print and send plans effortlessly
- Track changes with Comparative plan overlays.

● Load all major CAD and image file types

● Fully customizable hot keys and bookmarks

● Just point-and-click with your mouse to calculate square footage, lineal footage and / or item counts

● Calculate curves (arcs) and cut-outs

● Identify takeoffs easily Using labels and colors

● Maintain accuracy With the magnification tool

● Easily navigate through Plans using the overview windows

● With PlanSwift there is no Need for old fashion rulers and highlights
